Group Challenge

Group Challenge

- In this group challenge, we will divide into small groups of approximate 2 to 3 students in each group.
- Each group will work together to solve the challenge question.
- You will spend about 30 minutes for the challenge and then each group will present their answer by screen sharing.
- The goal of this challenge is to enhance your skills in coding, research, problem solving, team collaboration and presentation.
- Codepen links are provided for this challenge. Please fork before making any code changes.

  https://codepen.io/rloke/pen/mdMmwBd
  https://codepen.io/rloke/pen/QWMgGyY

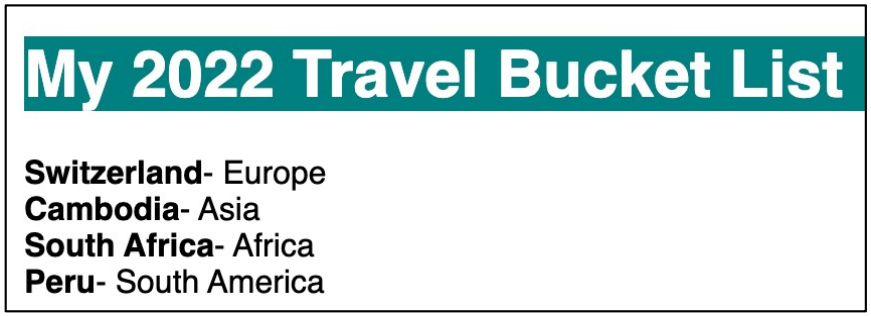

- You are only required to work on the JS window. You do not need to change or add anything in the HTML and CSS windows.

Group Challenge

Challenge 1

- see below example

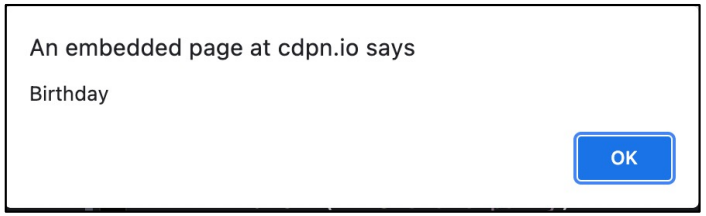

- **Challenge A:** Display the title
- **Challenge B:** Add a fourth country to the list stored in App's state.
- **Challenge C:** Display the continent next to each country, for example: ”Switzerland - Europe"
- **Challenge D:** Style the title and countries using the CSS classes already defined.

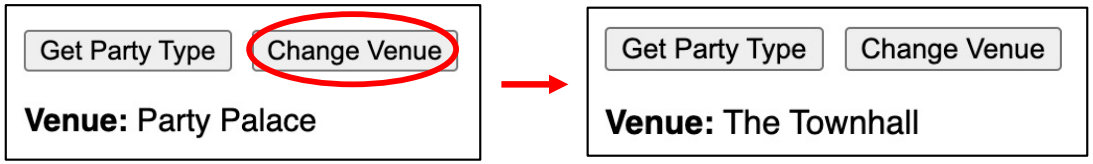

Group Challenge

Challenge 2:

- **Challenge A**: Create two buttons within the render.
- **Challenge B**: When the first button is clicked, an alert box shows the party name from the state.

- **Challenge C**: When the second button is clicked, the current venue is changed to the new venue:

Group Challenge

- Each group to share their solutions using share screen.
- Show your codes on Codepen.
- Presenter:

  Explain your approach including code concepts used.
